

High-level cleaning services are designed for hard-to-reach areas in commercial, industrial, and even retail environments—think factory ceilings, warehouse rafters, high-rise windows, and external cladding. These packages typically include:

What's Included in our High-Level Cleaning Package

Service Type	Description
Internal High-Level Cleaning	Ceilings, beams, ductwork, lighting fixtures, and walls in factories or warehouses
External High-Level Cleaning	Cladding, signage, rooftops, gutters, and solar panels
Window & Façade Cleaning	High-rise glass cleaning using aerial platforms
Disinfection & Sanitisation	Especially important in food manufacturing or healthcare settings
Risk Assessment & Safety Compliance	Full site survey and safety planning before work begins

Equipment & Techniques Used

- aerial platforms (IPAF-certified)
- High-pressure washers and steam cleaners
- Eco-friendly cleaning solutions tailored to surface types
